

# RETROFIT SERVICES

Is your power system equipment run ready? Concerned about ageing equipment being reliable? Concerned about equipment obsolesce?

Toromont offers complete analysis and Power Systems retrofit services to keep your power system up to date and run ready, including:

- ✓ Comprehensive Power System Analysis
- ✓ Switchgear Retrofits
- ✓ Tap Box Integration
- ✓ Automatic Transfer Switch Retrofits
- ✓ Generator & Switch Gear Control Upgrades
- ✓ Power Systems Sequence of Operation Changes
- ✓ Remote Communication Upgrades and Integration

Start by getting a comprehensive survey report on single or multiple options for upgrading existing electrical power generation, distribution, switchgear equipment and associated control systems.

Toromont utilizes its in-house engineering to provide design build packages for retrofit projects. This includes full electrical design, sequence of operation development, software programming and project management. Toromont provides full commissioning services for all retrofit projects. This includes post project support such as training, customer service agreements and general technical support.
