

TECHNICAL DIAGNOSTIC SERVICES

Toromont Cat Diagnostic Services provide fast, accurate analysis of the full range of engine and auxiliary systems. We utilize the most up-to-the-minute diagnostic instruments designed and built to critical standards to assure accuracy and dependability.

Each of these instruments performs its special functions with speed and efficiency, eliminating the costly trial-and-error approach to problem solving. Findings are analyzed and evaluated by trained professionals who will make the right recommendations for your particular situation.

You can rely on Toromont Cat Diagnostic Services to discover what's needed to restore your engine to peak performance quickly and economically. You can avoid costly, time-consuming disassembly of components and systems to locate trouble spots. In fact, we can provide preventive analysis to pinpoint potential trouble before it turns into downtime for your business.
