

INTRODUCING OUR NEW CG18 GENERATOR SETS

Natural Gas. Power on Demand.

READY FOR MORE POWER AND A SMALLER CARBON FOOTPRINT?

With cost-cutting fuel efficiency, EPA certification, and robust 350 to 500 kW capacity, the new Toromont Cat Power Systems CG18 Series brings the benefits of lean-burn natural gas with advanced digital connectivity.

KEY FEATURES & BENEFITS

PROVEN PERFORMANCE

Reliable Power on Demand:

Engineered with the proven CG18 engine platform, our generator sets provide dependable energy solutions for emergency backup, load management, and demand response programs.

ADVANCED DIGITAL INTEGRATION

Integrated Connectivity:

Equipped with Toromont Cat Power Systems Connect, Remote Access Monitoring (RAM), and Active Management Platform (AMP), these systems offer real-time monitoring and proactive maintenance.

EFFICIENCY & SUSTAINABILITY

Cost-Effective Operation:

Reduced maintenance needs and improved fuel efficiency translate into lower operating costs and enhanced ROI

Lower Emissions:

Operate cleaner than traditional diesel systems, contributing to a reduced environmental footprint.

WHY CHOOSE THE CG18 SERIES?

APPLICATIONS & USE CASES

EMERGENCY BACKUP & CRITICAL INFRASTRUCTURE:

Protect urban buildings, healthcare facilities, data centers, industrial operations and residential condos with rapid-response power solutions.

LOAD MANAGEMENT & DEMAND RESPONSE:

Optimize energy consumption and generate additional revenue through automated demand response programs.

INDUSTRIAL & INSTITUTIONAL POWER:

From production line protection in manufacturing sites to comprehensive energy management in large institutions, the CG18 Series is engineered to meet diverse operational needs.

SUCCESS STORIES & MARKET LEADERSHIP

Join the growing number of industry leaders who have already transformed their operations with the CG18 Series.

OUR CUSTOMERS REPORT:

- Significant cost savings and improved ROI through smart energy management.
- Enhanced operational efficiency through predictive maintenance and real-time monitoring.
- Greater confidence in power reliability, even during critical demand periods.

NEXT STEPS

Ready to elevate your energy strategy? Discover how the Toromont Cat Power Systems CG18 Natural Gas Generator Sets can transform your operations with efficiency, reliability, and advanced digital integration.
